Re: Letter of Recommendation for Allday Construction WA Pty Ltd

TO WHOM IT MAY CONCERN:

I wish to acknowledge the high standard of performance and professionalism exhibited by All Day Construction on the Pinjar Off Road Vehicle Area Western Car Park project for the Department of Environment and Conservation.

The project consisted of development of a complex limestone car park in a natural bush/pine forest setting with significant environmental restrictions and out of the ordinary landscape works required to label the project a success. Extreme care and sensitivity was taken with regard to all environmentally sensitive areas with proactive and professional decision making and management shown in all areas throughout the project.

Particularly noteworthy was the attitude and cooperative reactions of Chris Day and his staff to difficult and tenuous conditions caused by situations outside of their control and scope of works. His professionalism and proactive approach not only solved unexpected hurdles but improved the projects overall level of outcome.

The project was completed to such a high standard that it will be included in a submission for the Australian Institute of Landscape Architects Award of which we're hopeful we will be successful.

I would fully recommend All Day Construction for any project they're considered for in the future. If you have any further queries please don't hesitate to contact me.

Regards,

Steve Turner
